FAĆHIMO introduces a frictionless, integrated checkout experience that allows customers to input their exact body measurements when purchasing suits. By engineering a seamless digital tailoring engine, we deliver a perfectly customized fit directly to the consumer's door, eliminating traditional sizing barriers.

A strategic, three-phased rollout designed to manufacture demand and cultivate exclusivity prior to launch

Granting early, gated access to the custom-measurement checkout engine for our most engaged subscribers.

Phase 3

Full-scale deployment of the digital storefront, amplified by targeted acquisition campaigns aimed at our affluent demographic.
